**OBJECTION TO INCLUSION OF DOCUMENT IN THE RECORD**

Assistant Commissioner  
for Patents  
Washington, D.C. 20231

This is in response to an Examiner's communication mailed October 16, 2002.

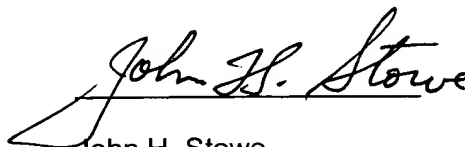

In the October 16, 2002 communication, the Examiner noted that the reply brief, filed September 30, 2002, had been entered and considered and that the application had been forwarded to the Board of Patent Appeals and Interferences for decision on the appeal.

The communication provided by the Examiner is irregular because the communication includes as an attachment, a copy of page 555 of Newton's Telecom Dictionary (Newton), having a date of March 1998, a document which was not previously of record. Inclusion of the attachment is considered to be in the nature of a supplemental Examiner's answer, which is not permitted unless the application has been remanded by the Board of Appeals and Interferences for such purposes. (See 37 C.F.R. §1.193(b)(1), last sentence.)

BOARD OF PATENT APPEALS  
AND INTERFERENCES

It is respectfully requested that the Board of Appeals exclude page 555 of Newton's Telecom Dictionary from consideration in any deliberations concerning the present appeal.
